INTEGRATION LESSON – GRADE 6

Topic: "Better Together – Integrating the Class"

Main Goal: Develop cooperation, communication, creativity, and a sense of community.

1. Introduction – What is Integration?

Definition: Integration is the process in which different people join together to collaborate, get to know each other, and create a friendly atmosphere. In school, it means every student feels important, accepted, and can develop their strengths.

Specific Goals:

- Develop class cooperation and communication.
 - Get to know classmates' interests, talents, and experiences.
 - Build empathy and a sense of community.
-

2. Integration Games

Game 1: "Two Truths and One Lie"

Description: Each student writes three sentences about themselves – two true and one false. Classmates guess which one is false.

Goal: Better peer knowledge, integration, and communication skills.

Game 2: "Human Bingo"

Instructions: Walk around the class and write the name of a person that matches each field. Each person can appear only once.

Goal: Learn about classmates' interests, activate the class, and strengthen bonds.

Game 3: "Create a Class Picture Together"

Instructions:

1. Teacher places a large sheet of paper in the center of the classroom.
2. Students sit in a circle around the paper.
3. The class is divided into groups of four. Each group approaches the paper in turn and draws an element that represents them – for example, their interests, feelings, or personality traits.
4. Subsequent groups add their fragments, connecting them with previous drawings so that a cohesive picture emerges.

5. At the end, all students observe the completed artwork and share their impressions.

Goal:

- Cooperation and communication in the group.
 - Expressing oneself and one's interests in a shared context.
 - Building a sense of belonging and community in the classroom.
-

3. Reflection

- Discussion: "Why is it important to cooperate in class and support each other?"
 - Students write one sentence: **"For me, integration in class is..."**
 - Share and discuss answers together.
-
